

IMEC Travel Bulletin Board launched

Members are advised that, following the initiative we announced in [Circular 81 of 2020](#), we have now added a further functionality to the IMEC website.

A new **Travel Bulletin** tab can be accessed on the right end side of the home page or through the new Covid-19 section and the “Travel Bulletin Board” submenu.

This facility is intended to hold details of any crew change charter flight arranged by Members which you wish to advertise to our wider community in order to optimise occupancy and reduce costs.

We would once again encourage you to contact hilary.ho@imec.org.uk with the following details in order for your charter to be advertised here free of cost:

- Flight departure and arrival locations
- Date and time of flight
- Deadline to apply (if applicable)
- Contact information to book

*Please note the currently listed Amsterdam to Moscow flight is just a demo and not a real flight.

This new facility comes with a few other cosmetic changes to the website aimed at concentrating the Covid-19 related info in one place making it more easily accessible to Members. We have taken onboard the concerns about the frequency of update Circulars and started uploading new files in the various sections directly without sending out individual Circulars every time.

Notable recent additions you may not have spotted yet are further letters to European leaders in the “Covid-19 Documents” sub-section and updates from UAE, Malaysia, South Africa and Australia in the “Covid-19 Crew Change Protocols” section.

The entire Covid-19 menu is available to the public, without the need to login as a Member.
